

SICSR ACM Student Chapter - Reporting Year 2017

Meetings and Recent Activities

IBM Interaction

SICSR had the privilege to experience the presence of dignitaries from IBM on its dais to address MSc(CA) students regarding contemporary technologies such as blockchain, security of identity, etc. The session proved to be highly informative and some of our dissertation projects have also been picked up from the ideas which the speakers mentioned.

Start: 22-Nov-2016

End: 22-Nov-2016

Hour of Code

On 7th December, 2016 at Pune Police Public School: The aim of this event was to teach students from different grades and age groups, computation without using computers. The sessions involved numerous activities such as role play, pictorial, treasure hunt and many more. In response to this activity, the students were very happy and gratified. On 9th December, 2016 at Symbiosis School, Prabhat Road: Similar set of activities were organized for the students of the aforementioned school and the experiences from the previous day helped us in making this event a bigger success.

Start: 07-Dec-2016

End: 09-Dec-2016

Women's Day Celebration

Under the umbrella of ACM Student Chapter Pune, the students of SICSR had organized an event on the occasion of International Women's Day. The entire teaching, non-teaching and administrative staff along with the students of MSc(CA) were warmly welcomed where they shared the stories of their women inspirations who helped prosper their lives. This was followed by sharing of their own experiences and cake-cutting.

Start: 08-Mar-2017

End: 08-Mar-2017

DellEMC Interaction

SICSR had invited renowned dignitaries from DellEMC Pune who gave insights on their current working storage systems. The interactive session conducted proved to be highly informative for all the students.

Start: 12-Jun-2017

End: 12-Jun-2017

Senior Citizen Interaction with Technology

Under the umbrella of ACM student chapter, the students of SICSR are planning to have the session with senior citizens to explain the niche area of technology for their ease. The objectives are to explain: computer network, usage of computer network to provide help for routine transactions and communication, which may include financial transactions, social media and services like cab, shopping etc. and security. Through this initiative, the aim was to digitally equip senior citizens in this new age and help them feel empowered in their daily lives whether it is independently requesting for an Ola, receiving and sending emails using Gmail, communicating via WhatsApp, making online transactions using Paytm and making basic security settings in their mobile phones.

Start: 12-Sept-2017

End: 12-Sept-2017
