

**Course Name:** Project (T3808)

**(UG/PG):** UG

**Number of Credits:** 8

**Level:** 5

**Learning Objective(s):**

To apply the knowledge gained in the first five semesters and carry forward the dissertation work of Sem V to develop an application, which is useful for the industry and/ or society. Students can develop any mobile app, commercial application, and website, work on any live project and apply the knowledge gained in the earlier semesters.

This project should integrate the knowledge gained across multiple disciplines and courses and challenges the student's ability to apply the knowledge gained through the academic program pursued by him/her.

The type of project work is such that it makes the students "industry-ready". It could be in preparation for careers:

- For positions in the corporate world
- As an entrepreneur
- In the field of research and development
- In the academic field

**Pedagogy:**

Discussion and guiding the students
