About SICSR

SICSR, celebrating its 37th year, is one of the first Institutes in Maharashtra to offer high quality computer education.

SICSR is located in the heart of Pune City. Our location, our broad portfolio of academic IT programmes, our talented and diverse student body, and our dedicated faculty members work together to create an educational experience that is relevant, enriching, and uniquely Symbiosis. SICSR has an outstanding IT infrastructure available to support the programmes besides its excellent book collection and reference library.

Specializations

Data Analytics (DA)

Data Analytics for Business Intelligence Specialization.

Evaluate business needs, design a data warehouse, and integrate and visualize data using dashboards and visual analytics.

This Specialization covers data architecture skills that are increasingly critical across a broad range of technology fields.

Banking and Financial Markets (BFM)

Banking & Finance Programme is a unique, specialist option for those interested in the state of the markets, banking professions and asset management. It covers subjects such as risk analysis and management, trading on commodity markets and alternative investments in depth.

Software Process Management (SPM)

Software Process Management Programme , specialist option for those interested in the value of process, requirements, planning, and monitoring in producing better software. Our starting point will be the goal of software product management, and that is to build better software.
