INSTITUTE OF COMPUTER STUDIES
AND RESEARCH

COURSE OVERVIEW

The MBA (IT) programme at SICSR offers students a perfect blend of technology and management courses. This degree prepares students to take up roles such as Business Analyst, IT Management Consultant, IT Architect, Data Processing Manager, Systems Software Manager and Product Manager, to name a few.

SPECIALIZATIONS

DA DATA ANALYTICS

This Specialization covers data architecture skills that are increasingly critical across a broad range of technology fields like Evaluate business needs, design a data warehouse, and integrate and visualize data using dashboards and visual analytics.

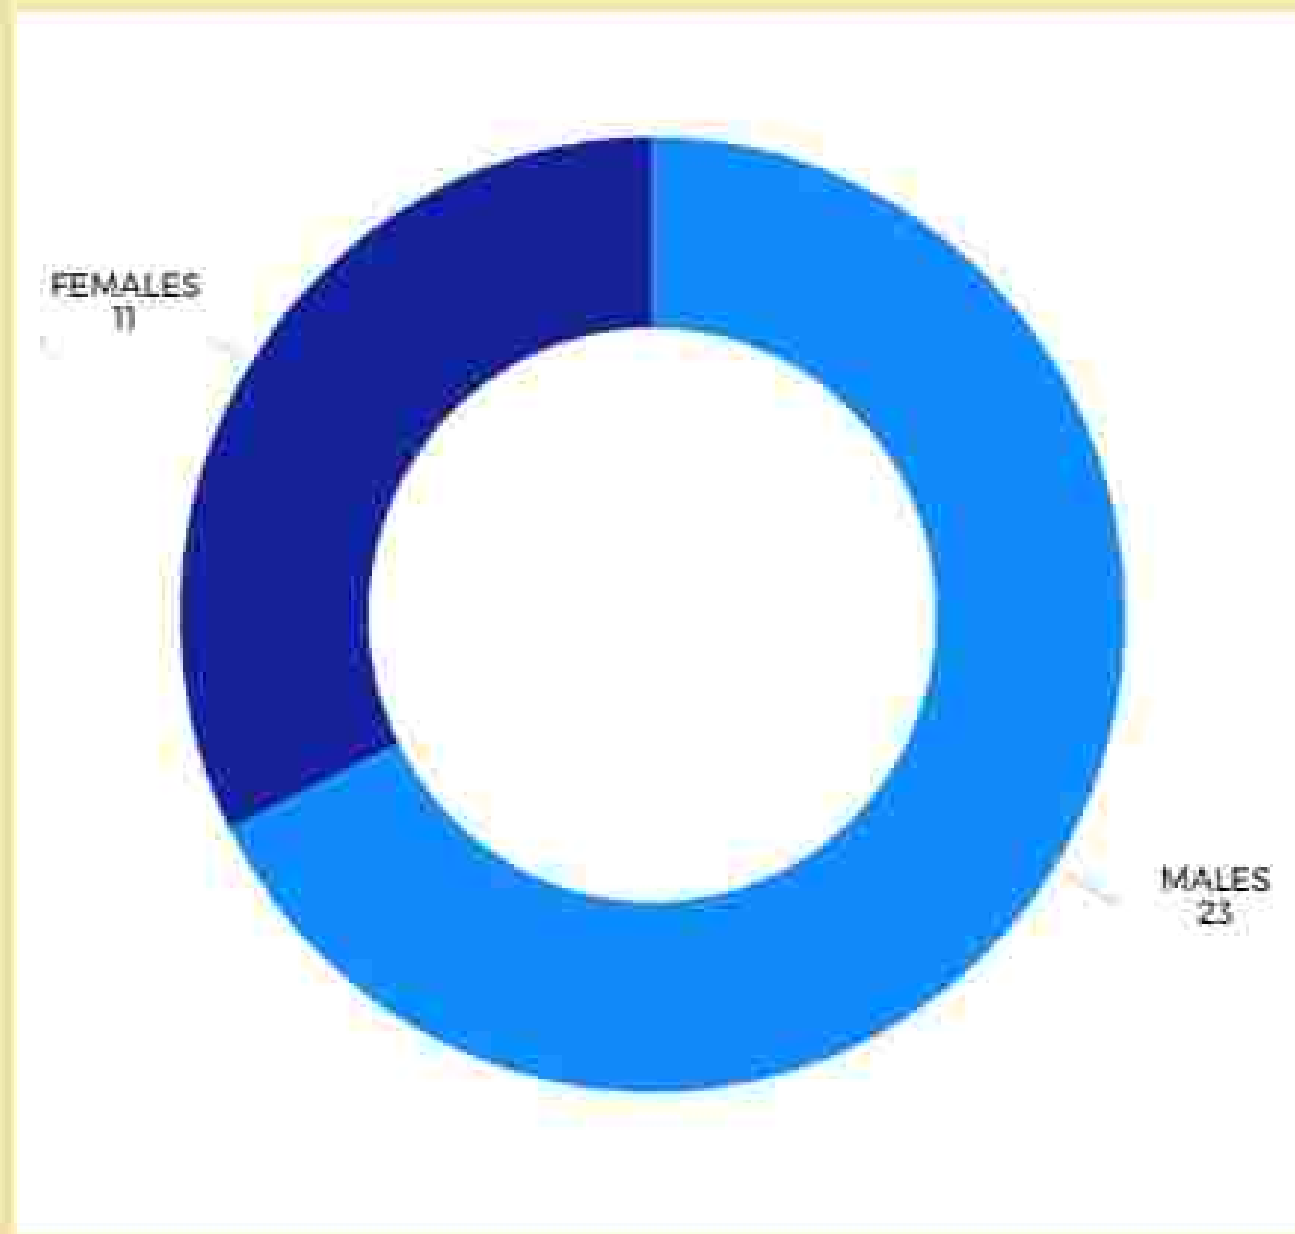

ITIM IT INFRASTRUCTURE MANAGEMENT

IT infrastructure management is the administration and upkeep of an organization's information technology system's hardware, software, and networks. IT infrastructure management frequently entails monitoring and troubleshooting of these systems to guarantee their efficiency and effectiveness.
